Apple Inc Company
California State, the United State of America

Dear Apple Inc. Company,

Please allow me to present myself and our institution for your kind consideration and approval for our request to have the UC app for the purpose of the common goods.

I am currently serving in the capacities as Acting President and Member of the Board of Trustees of The University of Cambodia. It is officially registered as The University of Cambodia (UC) Co., LTD. I wish to kindly inform your company that our university is a private higher education institution, which is legally and fully registered in the Kingdom of Cambodia, with the Royal Government of Cambodia (through a sub-decree signed by the Prime Minister), under the following ministries:

1. Ministry of Commerce, for company registration;
2. Ministry of Economy and Finance, especially the General Department of Taxation, for company tax registration; and
3. Ministry of Education, Youth and Sport, for university licensing.

The University of Cambodia has been in operations since 23 June 2003.

With its main purpose of providing higher educational services in Cambodia, UC has adopted its mottoes of "In Pursuit of Knowledge, Wisdom and Building Tomorrow Leadership."

With its main campus based in Phnom Penh, the capital city of Cambodia, UC has the legal license from the Royal Government of Cambodia for its full operations.

With UC's plan to further take our university operations to a level of digital education, UC needs to design, operate and use the digital platforms in order to serve the needs and interests of the broader community of students, scholars, instructors, educators, among others.

Therefore, with this overall goal of digital education, The University of Cambodia wishes to set up and launch UC's Digital App with the App Store with the goal of reaching more students and general public. In order for us to undertake this work efficiently, we have assigned and at the same time wanted to introduce Mr. Yim Monireak, a Cambodian national and our key technical staff, who has been serving in the position as an Engineer of Live Broadcasting for our Technical Media at the Technical Department.

As a representative of The University of Cambodia, we have authorized Mr. Yim Monireak, with a Cambodian National ID: 001318676, to perform various works, including general affairs for the creation as well as for the launching of the UC's Digital App with the App Store.

As stated above, we truly need the Apple Inc Company's kind support, full understanding and support. In this regard, we hope that your company will allow our representative, Mr. Yim Monireak, to process, create and execute the general tasks for UC's Digital App in the App Store. For the University's operations, we will abide by the rules and principles of the App Store and to support the public goods of both the Cambodian society as well as the global community.

Please accept my sincere appreciation and the assurances of my highest consideration.

Yours sincerely,

KHEM RANY

Acting President and
Member of the Board of Trustees
The University of Cambodia
